Classification Ranges.

I have the honour forward herewith a copy of the letter No. 25215 dated 24th Jan 1944 received from H.Q. 160 L of C Sub Area, on the above subject.

The military authorities have asked for permission to ear-mark 30 yards classification ranges in the marginally noted camp sites in order to speed up training.

1. Bidadi
2. Y Tank
3. Thondebhavi.

The Civil Officer, who was consulted on the subject reports that the object of the military is not to have any new classification ranges but merely to use certain natural and elevated "Butts" in the camp area and to improvise them into several ranges as is being done in Iblur camp. He recommends for the reasons stated (vide his letter No. M.B1-189/43-44 dated 10th Feb. 1944 - copy enclosed), that the permission asked for by them may be granted

granted. I agree with him and request that necessary permission of Government may kindly be obtained to the proposals of the military.

Sir,
Your most obedient servant,

With reference to your memo No. C.L.O. 324/43-44 dated 27-1-44 re: classification ranges, I have the honour to state that the Civil Liaison Officer, Bidadi camp has reported that there are already three classification ranges in his camp and th C.L.O. "Y" Tank reports that no other ranges are required except the 500 yards range at the 12th mile stone on the Madras road for which a recommendation has been submitted to your office on 7-2-44 with this office report No. M.Bl-793/43 The object is not to have new classification ranges, but to use certain natural and elevated butts in the camp area and to improvise them into several ranges as is beigg done in Iblur Camp.

On condition of the utilisation of naturally elevated butts in the camp areas and their improvements to suit the military as small ranges in the military camp area as in Iblur and not outside the camp area to which public may have access, sanction requested may kindly be granted. "Copy"
